

Issues in fee module:

As given in image below I've fee setup for Nursery and LKG

Now I go to Fee Management -> Fee Generation

Now I am generating Fee for Nursery, All Sections

For all Nursery enrolled student it is saying: The class has no fee structure configured.

But instead generated the fee invoices of LKG students.

5	Heidi Hahn IINV20260005	July 2026	2026-07-10	39,250.00	0.00	39,250.00	Draft	

Also for Students invoices I need this on Statement of Account View and Here student search by name or admission no or email. Also show pending amount paid so that there is an entry for fee payment.

Good morning! 🌞

Also print receipt function is not there. Print receipt should include the invoice line details in there.

Also certain things should be taken care of . During student onboarding there should be check box IsTransportationUsed , IsHostelEnrolled etc Boolean to control on invoices whether to include that or not. Because this is configured in fee structures itself.
